

LEVEL 3

Worksheet - 1

The planets in our solar system go around the Sun in a particular order. But here, as you can see, they have not been arranged properly. Write them in the correct order in the box given.

Neptune Mercury Uranus Venus Jupiter Mars Saturn Earth

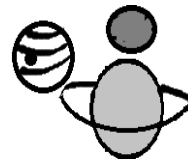

A large rectangular box with a black border, containing eight horizontal lines for writing the correct order of planets.

LEVEL 3

Worksheet 2

Choose the sentences from the box and write them in the correct boxes.

They appear to twinkle.
They are made up of rocks or gases.
They are huge balls of hot burning gases.
They shine with a steady light.
They do not have heat or light of their own.
They give out heat and light.

Worksheet 1 – Answer Key

Mercury Venus Earth Mars Jupiter Saturn Uranus Neptune
